

PRESS RELEASE

FOR IMMEDIATE RELEASE

Dreamweaver Class NYC Announces Dreamweaver Class Video Library

New York City - NY - March 10, 2010

Years of experience has taught us that all students need the ability to conveniently review the lessons taught to enhance their comprehension.

In response to your needs, we are pleased to announce that we are the first and only training facility in the New York Tri-State area to offer free unlimited on-line access to the classes we teach.

After completing a course, students will receive a user id and password that allows unlimited access to your classroom training to review at your own leisure.

Glenn Harris is an Adobe Certified Master Web Instructor with certification in Dreamweaver, Photoshop, Illustrator, Flash, InDesign and Acrobat.
